

Certificate of Adoption

Name :

Has adopted a nest of turtles, a species in danger of extinction

Scientific Name:

Nesting Date:

Number of Eggs:

Nesting Location:

Adopt A Nest!

If you want to contribute to the protection of endangered sea turtles, this is your opportunity! Each nest adoption costs \$35 and can be filed by a person, group, association, company, or family. As an “adoptive family,” you will receive an adoption certificate and will be contacted on the day of the hatching to assist in the release of the infant turtles to the sea. If you live abroad, you will be sent footage and photos of the hatching event. Your money goes directly towards funding the cost of patrolling the beaches at night and protecting these vulnerable turtles from poachers. Every infant turtle counts!
