

# *Certificate of Adoption*

Name : .....

*Has adopted a rescued ..... turtle, a species in danger of extinction*

Scientific Name:

Reason for rescue:

Biological Info:

Projected Release:

## Adopt A Rescued Turtle!

If you want to contribute to the protection of endangered sea turtles, this is your opportunity! Every rescued turtle adoption costs \$65 and can be filed by a person, group, association, company, or family. As an “adoptive family,” you will receive an adoption certificate as well as information and photos on the day the turtle is rescued. If the turtle is successfully rehabilitated and released, you will receive an update on its return to the wild. If it is recaptured, we will let you know! Your money goes directly towards paying for the cost of rescue, including the turtle’s 4-hour commute to Puntarenas, the site of the only turtle rescue center in Costa Rica.
